

Update - Texas Medicaid Provider Procedures Manual for Pharmacological Management Services

TMHP has posted the following update on their website:

This is an update to the current Texas Medicaid Provider Procedures Manual (TMPPM), Behavioral Health, Rehabilitation, and Case Management Services Handbook, subsection 6.9, “Pharmacological Management Services.”

Pharmacological management is not diagnosis restricted.

Reminder: Visits primarily focused on pharmacological management of a psychiatric condition must be submitted with modifier UD. The treating provider must use the most appropriate evaluation and management (E/M) procedure code for the pharmacological management visit, depending on the place of service and complexity of the client’s condition.

For more information, call the TMHP Contact Center at 1-800-925-9126.
